

SOCIAL CREDIT WINS BID FOR 5th TERM OF OFFICE

The Social Credit administration, under Premier E. C. Manning, was swept back into power on Tuesday of this week, in its second appeal to the electors.

Locally, in contrast to the provincial election of 1948 when there was a slight undercurrent of hard feeling, the village poll was quiet even to boredom. 232 eligible voters appeared on the list, of whom 151 voted. Dr. Crooks, Social Credit candidate, receiving 99 votes, while Liberal candidate Fred W. Siemp received 51 votes. There was one spoiled ballot. Returns for the Hand Hills constituency at 8:10 p.m. when victory was declared to Dr. Crooks were:

Dr. W. W. Crooks, Social Credit... 368
Fred W. Siemp, Liberal... 283

As the evening wore on, final returns came in from many rural districts, but returns from the cities of Edmonton and Calgary, where there was a multiplicity of candidates, and where, also, the close of polls came one hour later, were much delayed, in fact, final counting was not finished at 8 a.m. on Wednesday, at which time Social Credit had elected 41 candidates; the Liberals, 1; C.C.F., 1; and one Independent Social Crediter had been elected, leaving 17 seats to be decided.

Liberal Candidate

FRED W. SIEMP

Farmer and rancher of the Scapa district, but now residing in Hanna, where he has been the Liberal banner in the Hand Hills constituency, at the recent provincial general election. Mr. Siemp is 39 years of age, and was born in the United States, coming to the Scapa district in the latter part of 1913. During his youth he was actively associated with many community enterprises, and for several years was a member of the Scapa and district baseball team. In later years he and his wife and two children farmed and ranched north-east of Scapa. Mr. Siemp still is actively engaged in the farming and ranching business, and while residing in Hanna has held a part time position with the P.F.A.A. He received his high school education at Fleet, and following this held a position with the Canadian National Railway at Scapa. This is his first venture into politics, although for many years he has been actively interested in the affairs of the Liberal party, both provincially and in the federal field.

THE WORLD OF WHEAT

By H. U. S. Strang

The stem rust invasion. By July 25th stem rust—most probably the dreaded 15-B—had been firmly established, with however a light infection, in all wheat fields in North Dakota and Southern Minnesota, in Manitoba as far north as Dauphin and Neepawa, and in south-east Saskatchewan as far south as the C.P.R. line and as far west as Yellow Grass and Regina. The area affected comprises five million acres out of the 35 million acres in the prairie provinces to harvest. Early sowing crops, about one third of the total, will, it is thought, most likely escape damage. The damage to the other two thirds will depend upon the weather up to harvest time. Should the weather be hot and dry but little damage will be suffered. Should the weather remain damp, warm and muggy considerable damage will ensue.

Dr. C. H. Goulden, the Dominion Cereals, made a statement on July 22nd, that the Dominion Cereals Breeding Laboratory at Winnipeg, have developed a new wheat that is resistant to 15-B, and which will be ready for distribution for commercial purposes in the spring of 1954. Dr. E. C. Stakman, eminent U.S.A. pathologist, has directed attention to the re-appearance in the States of Race 11, which can damage, if it spreads, some of the low hybrids now being developed to resist 15-B.

Senate Probing Indecent Books

A senate committee studying the spread of indecent literature in Canada, issued its final report in Ottawa last week, recommending further investigation into the problem at the next session of parliament.

No action was taken on the recommendation by the senate. It was understood that if the government does not set up another committee at the next session, Senator Payne, sponsor of this senate's committee, would make the necessary motion himself.

The committee reported intense public interest had been stirred up by the investigation with hundreds of letters, recommendations and resolutions being sent in. "Time had not permitted an exhaustive study of the problem of indecent literature, and many similar organizations had urged permission to be taken for the next session of parliament for the re-constitution of the committee was recommended."

—Exchange

Scaric Precipitation Report

No. 13
Compiled from the Records of 400 Government and Selected Rain Gauges, commencing up to and including July 28th, 1952.

For the third week in succession the better than average rains which have been enjoyed since the practice have all further improved the over-all moisture condition. This overall condition (weighted for wheat acreage) now stands at 111 per cent of normal, compared with 109 per cent of normal, compared with 93 per cent at this time a year ago.

Alberta now stands at 115 per cent of normal, compared with 115 per cent last week. Saskatchewan now stands at 112 per cent of normal, compared with 111 per cent last week.

Manitoba (which has suffered a deficit) now stands at 89 per cent of normal, compared with 91 per cent last week.

The rains which have fallen during this growing season from April to this date have been 105 per cent of normal for Alberta, 99 per cent for Saskatchewan, and 77 per cent for Manitoba.

In Alberta Crop District No. 8, 9, 11, 12, 16, and 17 have all received better than average moisture during this growing season; all other Crop Districts somewhat less. In Saskatchewan Crop District No. 9 alone has received better than average rainfall during this growing season; all other Crop Districts somewhat less. In Manitoba all Crop Districts have received somewhat less than average moisture during this growing season.

At this date crops in the three provinces, particularly in Alberta and Saskatchewan, promise a good harvest.

The wheat stem rust, which has infested about five million acres in Manitoba and south-east Saskatchewan, has not spread since last week to spite of the weather conditions.

It is thought to rest authorities that the present wheat varieties are developing somewhat of a resistance to the 15-B, as the plants approach maturity.

The Canadian government is trying to get about \$4,750,000 due from western farmers for seed grain between 1946 and 1952. The principal sum was \$1,776,000 and interest \$2,974,000.

Dry Land Crop Rotations

Lethbridge Experimental Station, Weekly Letter.

The year 1951 made available 40 years of data from five of our nine dry land crop rotations. These rotations include the regular grain, rotations commonly used on dry land farms in southern Alberta as well as rotations incorporating grasses and legumes.

Rotation A which has been growing wheat continuously for the past 40 years, produced 13.8 bushels per acre. This yield is slightly higher than the long term average of 12.1 bushels per acre, and is considered to be very satisfactory.

An alternate wheat fallow rotation produced only 21.5 bushels per acre as compared to the long term average of 27.1 bushels per acre for this rotation.

It is interesting to note that the yields per acre of rotation for these two cropping systems compare quite favorably. They are: 12.1 bushels per acre for the continuous cropped rotation, as compared to 13.6 bushels per acre for the two year rotation. Factors such as weed control, crop disease, and soil moisture reserve assume major importance in deciding which of these rotations is best.

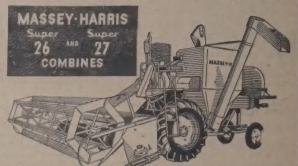

A third rotation of 3 year wheat and a first year fallow has produced an average of 13.5 bushels of wheat per acre of rotation. Many farmers feel that this rotation fits best and adapts itself most readily to our dry land farming system.

A winter wheat rotation of three years duration was under observation at the Lethbridge Experimental Station from 1936 until 1950. Throughout this period yields have been satisfactory following fallow, but yields from the established-in crop have been disappointingly low. Germination of the established-in crop has often been poor and only thin stands have survived the winter. Dry stand conditions in the fall of the year followed by rather severe winters, may be the major cause of the resultant poor crop.

None of the above rotations have received commercial fertilizer as manure.

Some of the above rotations, which include grasses and legumes, also are under observation and are highly recommended in areas where moisture is low.

COMBINE MORE GRAIN IN LESS TIME...

Balanced Separation Multiple Speed Drive

You've watched a traffic officer on a busy corner on Saturday night, directing... regulating... controlling... keeping traffic on the move. And that's exactly what balanced separation does in the combine. Balanced separation regulates the flow of material—keeps them moving at top speed... keeps them from overhauling or clogging. Saves combine a great deal of time.

Come in soon and let us tell you the whole story

Mrs. Dedyuk Saw First Crop of Stampede

OWENSBILL—

Mrs. Milla Dedyuk, of this city, as a guest at the Calgary Exhibition and Stampede July 7th to 12th, had extra enjoyment out of the occasion since she was one of the guests at the show when it opened in 1912.

Mrs. Dedyuk, who has seen many Stampede since the first show was that through the years she has noticed the expansion and increase in the size of the show, making up the Calgary Exhibition and Stampede.

Mrs. Dedyuk believes that the stampede which "the greatest outdoor show in the world" is a first description of the work of Western life making up the present show.

A true picture of Mrs. Dedyuk's memory, was one of the main acts in the stampede of 1912. Young boys and girls, in trying to duplicate the act in their homes, became fatally concerned in rope and clothing.

World Bank Reports On Loan Commitments

WASHINGTON — By 1st June 1952, the International Bank had made loan commitments totaling \$1,360,183,000 for reconstruction and economic development projects in 38 countries and territories. For the entire period of operations, the Bank's net income on March 31st, reached \$4,800,000.

The International Bank is a Specialized Agency affiliated with the United Nations.

McPherson Discusses Tourist Plans

Stouty McPherson, chairman of the Tourist Committee of the Chamber of Commerce, Monday night told members of the Drumheller Rotary Club that plans to accommodate summer visitors here in the future were being on a greater number of road signs. McPherson said that work on the Tourist Committee was underway.

THE INFANTRY MORTAR CREW...

In attack and defence, the Mortar Crew adds to the effectiveness of Infantry. Accurate, concentrated firepower is vital to successful operations in the field. It calls for quick, highly trained men to operate the many complex weapons of the Infantry.

Canada's great, independent Infantrymen are the finest fighting soldiers in the world. At home and abroad, these young men stand in the front line of Canada's freedom.

There are outstanding career opportunities for young men in the Canadian Army Active Force. They are career opportunities with challenges of adventure, the excitement of travel in the most important job in Canada today—defence.

You are eligible for service in the Canadian Army Active Force if you are 17 to 40 years of age, resident in Canada, physically fit and ready to serve anywhere.

Join the CANADIAN ARMY ACTIVE FORCE NOW!

NOTICE

Applications are being sought from girls seventeen and one-half years of age and over for training as Ward Aids in a class which is being started now.

Required academic standing grade nine and better. Generous pay while training.

Apply in person to:

Mrs. G. BROWN, R.N.

Acting Superintendent of Nurses

Drumheller Municipal Hospital, Drumheller, Alberta.

ENGAGEMENT

PETTIFER-ELLIOTT

Mr. and Mrs. S. A. Elliott, of Delia, announce the engagement of their youngest daughter, Enid Louise, to Mr. John Richard Pettifer, of Calgary, son of Mr. and Mrs. Richard Pettifer, of Canby, Ontario. The wedding will take place at Scarborough, Ontario, August 23rd, at 4 p.m.

U.S. All-Girl
Pipe Band
Tours Europe

WORLD NEWS IN PICTURES

Mother And
Grandma Win
Air Race

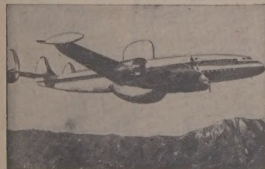

ALL-GIRL PIPE BAND TOURS EUROPE—When the All-Girl Bagpipe Band from Iowa offered to render their interpretation of Scottish airs on Aberdeen streets, the city council rejected their offer and one of the council remarked the band probably consisted of a few "half-caste" girls playing "jazz or be-boy." The band has sailed from Montreal for Southampton and, whether Aberdeen likes it or not, they'll play by invitation—at Berlin, French, Holland and Swiss cities and towns. Drummer Wilma Waller shows the girls which the girls will wear—and they hope they have opportunity to appear in Aberdeen.—Central Press Canadian.

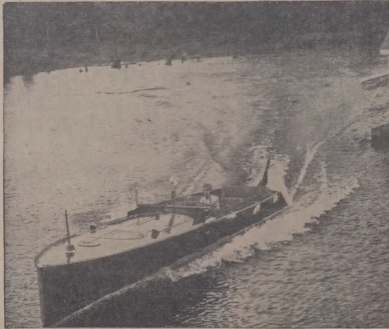

DOWAGER QUEEN AT FAVORITE PARTIME—Dowager Queen, Mother Mary is seldom seen in public now but here she is in a London shopping hour, one of her favorite pastimes. Leaving a well-worn suitcase shop, she is escorted by proprietor John Sparks.—Central Press Canadian.

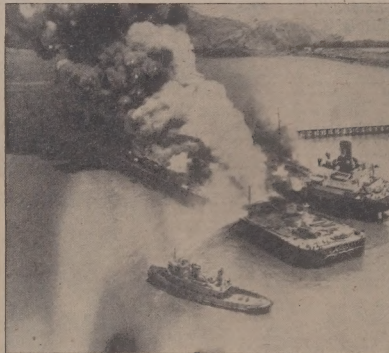

MOTHER, GRANDMA WIN AIR RACE—A mother and a grandmother, pilot and copilot of a small plane, are congratulated after being the first to land at Ytterbury, New Jersey, airport, in the sixth annual "Powder Puff Air Derby" from Santa Ana, Calif. They made the 5700-mile trip in seventeen and one-half hours. Here, Constance Hahn shares hands with Mrs. Isabelle McCrean, a grandmother, of Lemon, Calif., while John Pers congratulates the copilot, Mrs. Betty McNeil, a mother, of La Mesa, Calif.—Central Press Canadian.

AIR SENTINEL OF A CONTINENT—A Lockheed WV-2 prompts a fierce outline against a backdrop of the Rockies during a test flight check. The U.S. navy's new radar-plane features a black-like fin along the plane and an expanded "balloon" below. Exact mission of the WV-2 is secret but official reports describe it as principally a high-flying radar center for domestic defense.

LEGENDARY MILLIONAIRE CANCELS MUSKOKA VACATIONS—Up for sale is the fleet of power launches owned by Cameron Peck, Chicago millionaire, who has become a legend on the waters of Muskoka lakes, Ontario. Since 1912 he and his family have spent the summers there collecting and building boats, some of them modeled after famous ships of the past and complete in detail down to the size and type of the screws that hold the ships together. The yacht in his collection numbers 58, from which he can cruise to 70-foot steamers. It has been forced him to cancel future vacations in Muskoka.—Central Press Canadian.

FIREBOAT FIGHTS FLAME ON BLAZING TANKER—Tongues of orange flame and clouds of billowing black smoke shot over 500 feet into the air when two oil tankers in Martinez, Calif., caught fire while they were tied up at the Union Oil Co. docks. Fire first started aboard the tanker V. H. Kelly then rapidly spread to the tanker Lompoc. In an attempt to prevent the flames from spreading and engulfing the entire dock area, the Lompoc pulled out into the middle of the stream. Damage to the pier and the two tankers has been estimated at \$5,000,000.

BOWAGER QUEEN AT FAVORITE PARTIME—Dowager Queen, Mother Mary is seldom seen in public now but here she is in a London shopping hour, one of her favorite pastimes. Leaving a well-worn suitcase shop, she is escorted by proprietor John Sparks.—Central Press Canadian.

COMPLETE LONGEST MASS JET FLIGHT—A squadron of 50 U.S. Thunderbolt fighter bombers landed at Honolulu, Hawaii, completing the longest non-stop air-landing flight ever attempted—2,400 miles from Travis Air Force base, California. They made the over-water hop in five hours and twenty-five minutes, averaging six miles an hour. The rest of the fighter-escort wing will "relax" here. The remaining part of the Pacific to Japan. At top, a Thunderbolt is refueled from a jet at the Centre, Col. David Hamilton, (right), commander of the wing, points out the course of the flight of the jet to his deputy, Col. William L. Dugan. At bottom, security guards stand watch over the jets before take-off from Travis Air Force base.—Central Press Canadian.

SELECTED WITHOUT THE CUSTOMARY BULLET—Adolf Ross Cortines, candidate of the government-backed, party of revolutionary institutions took an early lead in returns from Mexico's biggest and most peaceful presidential elections. That a single shot was fired in Martinez, newspapers protesting in jubilation at the peaceful voting.

TRIOUBLED EGYPT—Hosni Sirry Pasha, 30, pictured recently in Cairo, as his country was taken in control by the Army.

MAN AND MOUNT ABOUT TO PART—An entry in the steer-riding contest at Calgary's famous Stampede appears about to become air-borne as his mount bucks and turns. The Stampede attracted thousands from the U.S. and Canada.—Central Press Canadian.

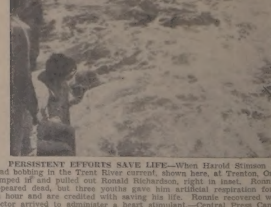

MR. ACHESON GETS AROUND—U.S. Secretary of State Dean Acheson and President Getulio Vargas, (left), of Brazil confer at the Presidential Palace in Rio de Janeiro. Acheson is en good will tour of Brazil after attending the four-power conference in Britain.

CHEAPER PLANE FOR TANK DUSTING—Making its first public appearance at Inglewood, Calif. is the controversial new U.S. "tank buster" known as the PD-2. It's a 30-foot, all-magnesium flying "tank buster" designed to eliminate enemy ground installations at a fraction of the cost of modern jet fighters. The last pictured here was made during national convention of the Aviation Writers Association.

PERSISTENT EFFORTS SAVE LIFE—When Harold Stinson saw a land bobbing in the Trent River current, shown here, at Trenton, Ont., he jumped up and pulled out Ronald Richardson, right in inset. Pinned, 18 appeared dead, but three youths gave him artificial respiration for over an hour and were credited with saving his life. Route recovered when a doctor arrived to administer a heart stimulant.—Central Press Canadian.

The delivery men of the big bakeries in Winnipeg, known as salesmen, are paid partly by salary and partly by commission on sales. The men, however, probably correctly, that anything like a price war—that is to say, price competition among the retailers—would reduce the commission received by the salesmen, who are of course, members of the union. Consequently, on two occasions, the men, believing their members employed by the big bakeries not to deliver bread to the Jewel chain store organization in Winnipeg, which had reduced its price below that of other stores. The salesmen obeyed orders and refused to deliver the bread produced by their employers to the Jewel store. The managers of the bakeries, in fear of a full-blown strike, did not object about it, and that the dispute was specifically between the Jewel store and the Jewel stores.

In the commission's report, the answers given to his questions by the union officials, and by the bakery executives, are intensely interesting and human. Although there was a little beating about the bush by the union officials, they were not skilful enough to camouflage their true opinions and intentions, and probably they did not even want to. Their whole attitude was that of ingenious evasion. The Jewel store, which is a club member of the union, was assigned for the benefit of their members.

Like so many other groups and individuals, these trade union officials simply could not believe that the law could be right if it restricted them. And yet, the trade unions as a body have been among the most vocal critics of exactly similar tactics when pursued by manufacturers.

WINS SHORT STORY AWARD
HELEN HOWARD
The following short story won the WINS Short Story Award for 1951. It was the third consecutive victory for Helen Howard. The story is titled "The Daughter of the Sea" and is a story of a girl who is a member of the club member of the union, was assigned for the benefit of their members.

TRANSLATED
A lovely sentence I stood amid the vast grandeur of the prairie. My mother-in-law was as promising as the virgin land rolling east to the Head Hill, and south to the marvels of the Dinosaur Valley. "Morning, Cheryl," she greeted me. "I wish I could see you as often as I do. You are a lovely girl, and a much better one than I was. I was proud, for I was being used and loved. How joyfully my self looked out its sound of authority, welcoming the eager feet as well as the fiery one. I served my community with my love of molding and building the children's lives to take their place in the world."

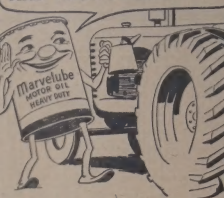

The pioneer's life was hard and discouraging. To see their child refuge from loneliness and despair. I was the oldest sister on all eight happy occasions. The true western spirit was in my heart. On Sunday the quiet strains of old familiar hymns were in my mind. Yes, for many years my life was a struggle. I was a girl, and the dawning of a new era. Old systems were being replaced by new ones. I was a girl, and the dawning of a new era. Old systems were being replaced by new ones. I was a girl, and the dawning of a new era. Old systems were being replaced by new ones.

Remember the Eilentson auction, next week.
Tony Degiano was a visitor to Calgary by bus over the week end.
"Ho" Peters (of the Queen's Hotel), and family, will be in Calgary in company with Mervin See and family, for a motor trip to the west coast.
G. E. Hewson, of Calgary, has been visiting his son and daughter-in-law, Mr. and Mrs. Marshall Hewson, in Delta, during the past couple of weeks.

Terry Hodson, nephew of Mrs. Julia Jolin, who was killed in a party of five neighbors, with tractors, cultivators, and harrows visited the Neimes farm last week over the summer-fallow the second time. Arvin demonstrated their wonderful, friendly and neighborly spirit with such timely help in the hour of need. Ed was greatly cheered and joins the family in extending warm thanks.

Marvelube Motor Oil

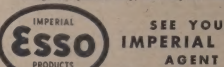

PROTECTS YOUR TRACTOR AND YOUR POCKET BOOK

At present day values of tractors and threatening shortage of new ones, extra engine care and maximum protection from wear is just downright good business.

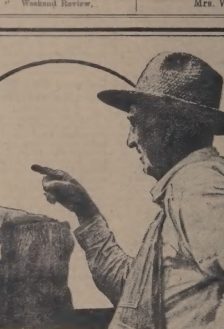

Lubricates Protects Cleans!
Marvelube Heavy Duty Oil designed for use in all types of engines. It protects your tractor, truck or car engine, keeping it clean, cool, and free from gum, sludge and abrasive particles, lasts longer, performs better. Marvelube is the oil that's right.

Book Your Orders Now!
Don't wait until spring work actually commences. A supply of top quality Marvelube Motor Oil and Gear Oil is in stock at the right place in the right place and at the right time prevents delay, when every hour counts.

CARD OF THANKS
I would like to thank my friends and neighbors, also the Canadian Legion, for gifts, cards and letters received while a patient in Hanna Hospital. Mrs. Wilma Battie.

Yes, Sir... I'm for the Alberta Wheat Pool
1. Because Alberta Wheat Elevators give effective service and protection to all.
2. Because Alberta Pool Elevators are operating at cost and excess earnings are returned to member patrons. Over the years such patrons have received over \$5 million in cash and nearly \$6 million in reserves. Ownership rests with the reserves.
3. Because Alberta Wheat Pool and Pool Elevators are owned by many thousands of Alberta farmers who have invested close to \$8.5 million in this great enterprise. Pool members can safeguard their investment by delivering all their grain to Pool Elevators. A large volume of deliveries means low cost of operation.
4. Because the Wheat Pools are mainly responsible in keeping down the cost of handling grain. Such costs are remarkably low, probably the lowest in the world. This is a tribute to the effectiveness of farmer co-operation.
5. Because the business operations of the Alberta Wheat Pool are an "open book." Pool members may obtain the fullest information concerning the operations of their organization through their elected delegates and directors.
6. Because the co-operative principle of "each for all and all for each" is the co-operative ideal which aims at spreading economic justice throughout the nation and throughout the world.
7. Because it is of vital importance to Alberta grain producers that a strong co-operative elevator system should flourish in this province. It is essential that such an elevator system should be under the control of Alberta grain producers—the men who are actually following the occupation of farming.
8. Because Alberta Wheat Pool is the only organization in Alberta which meets these requirements.

Yes, Sir... I'm for the Alberta Wheat Pool
